PRESIDENT UNIVERSITY

Information System
GPA: 3.93/4.00

Achievement

- Awardee JABABEKA Scholarship 2023
- 1st Place of CSGO 2024 Badminton Competition
- 1st Place of PUSH CUP 2024 Badminton Competition

EXPERIENCES

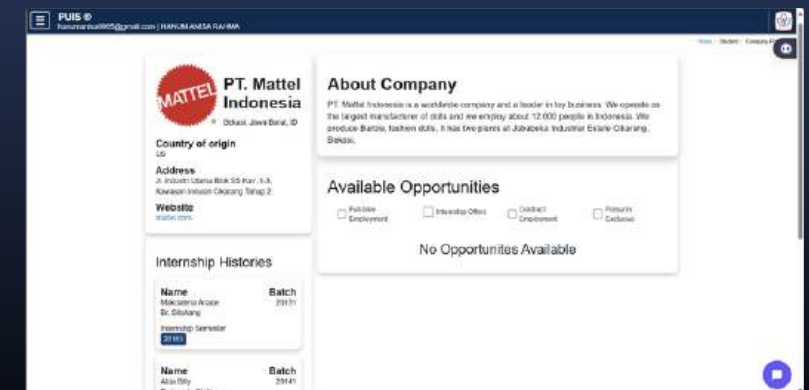

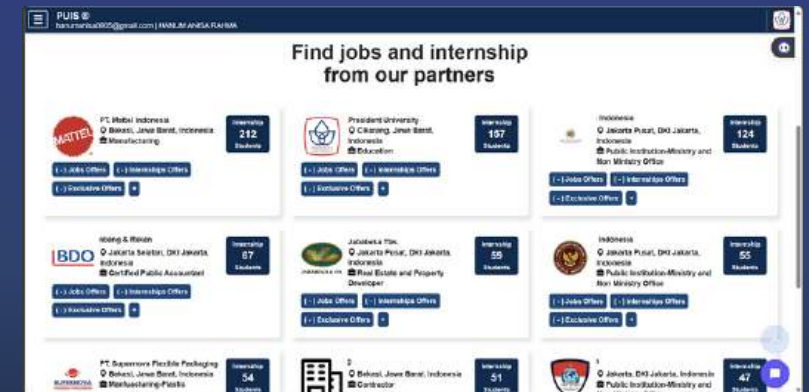

Data Analyst Internship President University

I work with **student and company internship data**, analyzing and visualizing it to **improve access and decision-making for internship opportunities**.

What have I done?

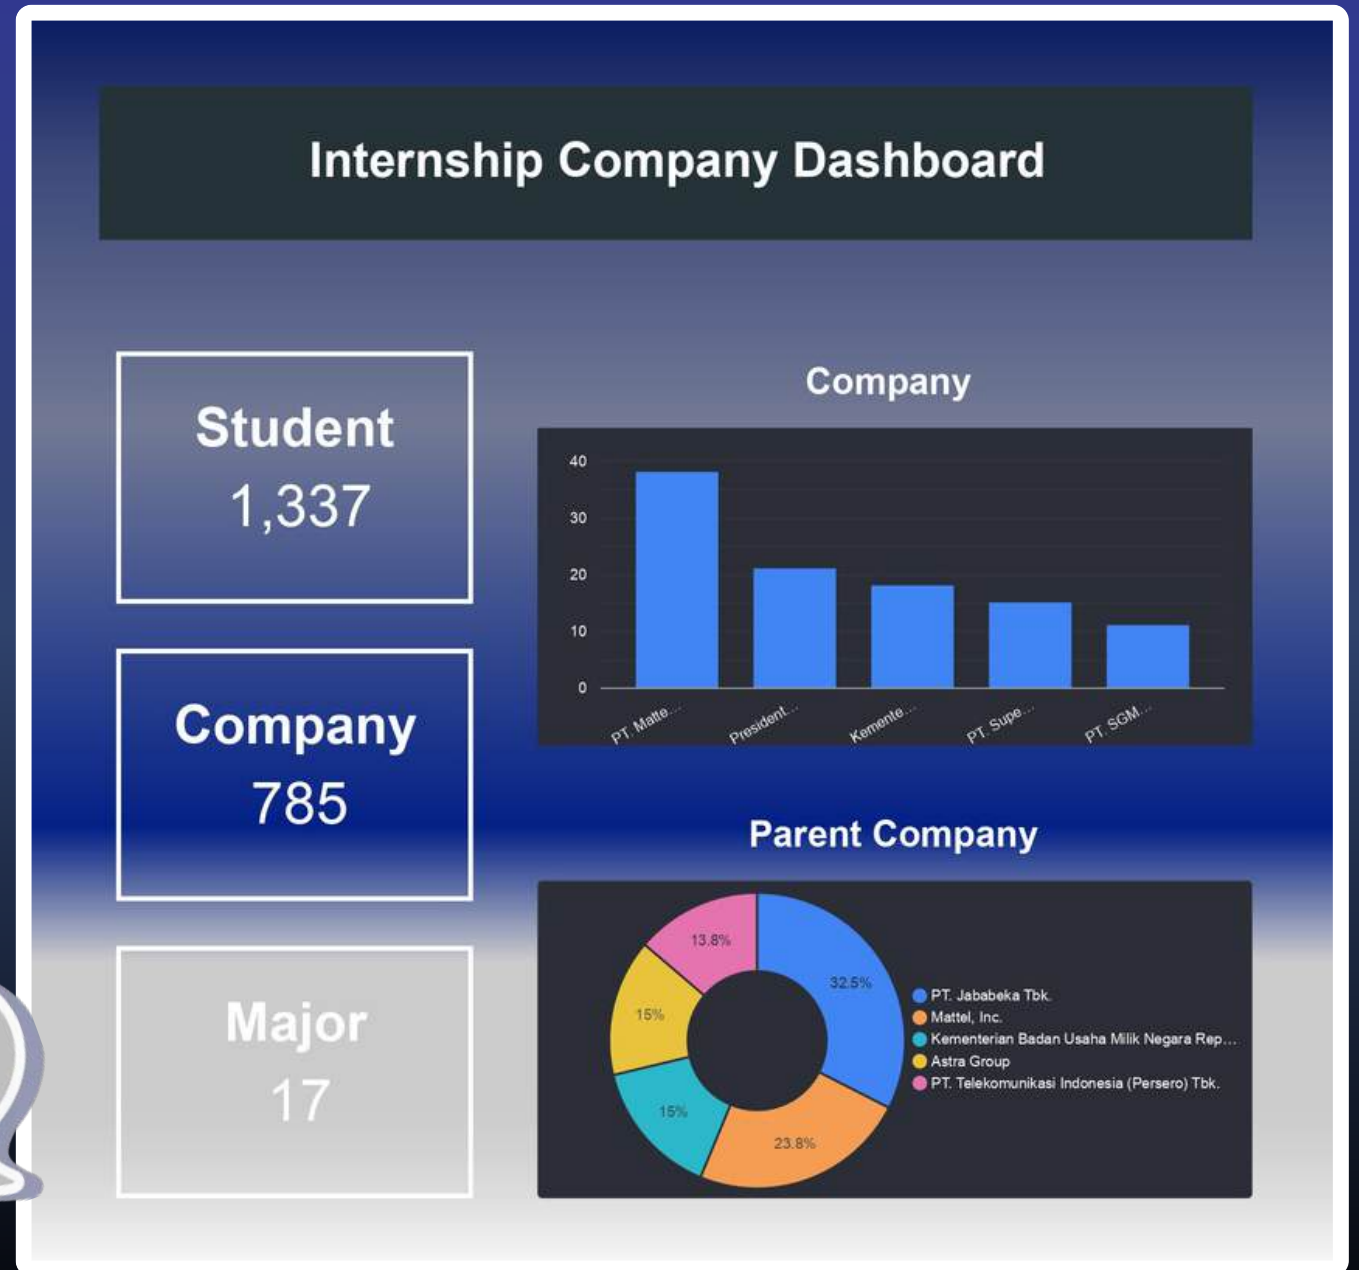

- Analyzed and cleaned student and company internship records to ensure accurate, reliable data.
- Categorized **1,200+ parent companies** and **1,500+ subsidiaries** to streamline data search and internship matching.
- Updated and enhanced the **Career Dashboard** on the PUIS website, leading to a **30% increase in student satisfaction** and a **20% improvement in data accuracy and accessibility**.
- Developed an **Internship Monitoring Dashboard** to **track real-time data on student internships**, including participant numbers, company name, and majors — supporting students to find relevant opportunities and for the campus to track internship distribution.

What am I working on?

- Enhancing the dashboard with real-time student internship progress tracking.
- Developing features to recommend internship opportunities based on student records and company categories.
- Automating data classification for faster, scalable internship data management.

Let's Connect!

Human Resource Internship

GAOTek.Inc

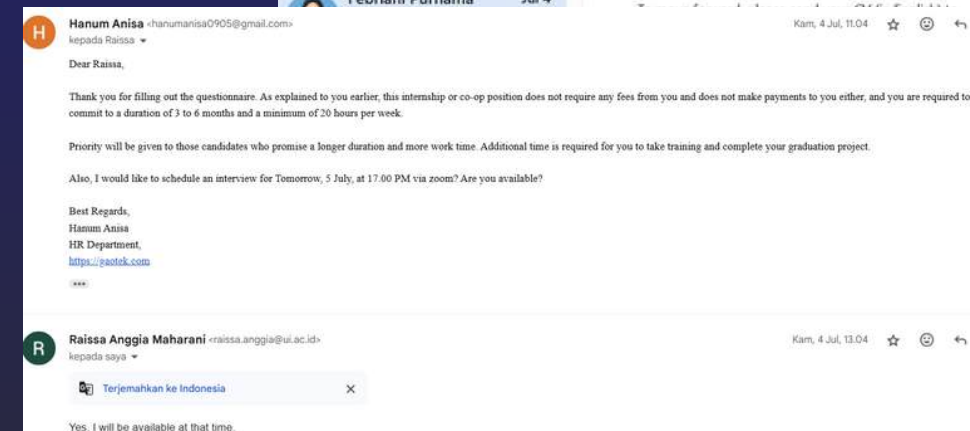

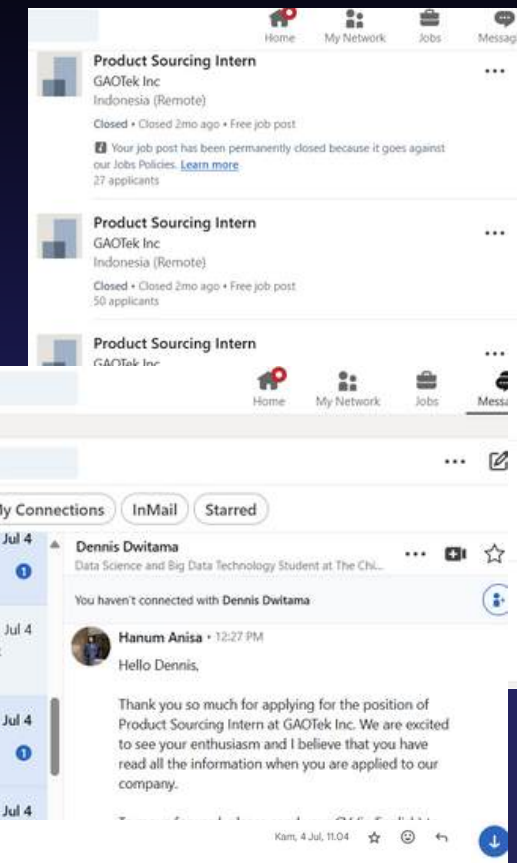

I work with candidate recruitment data, **managing end-to-end selection processes** from candidate screening to interview scheduling, to support efficient and effective talent acquisition.

What have I done?

- Screened and recruited **50+ qualified potential candidates** for various roles.
- Scheduled and conducted **first-round interviews** via Zoom for candidates across **3+ different positions**.
- Coordinated **interview schedules** and **maintained candidate records** to streamline the recruitment process.

What am I working on?

- Improving candidate tracking and selection documentation for faster recruitment reporting.
- Assisting in refining the recruitment pipeline to enhance candidate experience and placement efficiency.

Business Development Internship

ScaleUpUKM

I work with **SME and distributor business data**, focusing on **lead generation, business proposal development, and optimizing outreach strategies** to drive client engagement and business growth.

What have I done?

- Conducted proactive outreach, engaging with **30+ SMEs and distributors**, increasing lead conversion by 20%.
- Designed, drafted, and **presented 3+ comprehensive business proposal** tailored to client needs.
- Developed and maintained a database of **20+ SMEs and business partners**, improving **outreach efficiency by 35%**.
- Implemented **agile methodologies**, reducing client inquiry response time by 30%.

What am I working on?

- Expanding the business partner database and lead generation pipeline.
- Enhancing proposal templates and presentation decks to improve client conversion rates.
- Analyzing outreach data to optimize engagement strategies and identify new market opportunities.

Proactive Outreach

ORGANIZATIONAL

PUMA Information System

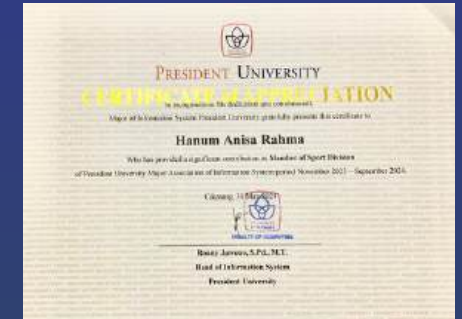

I actively contributed to **student event management and committee coordination**, focusing on **fundraising, sports events, and program scheduling**.

What have I done?

- Served as **PIC Fundraising and Food & Beverage**, successfully raising **IDR 1,500,000** to support event operations.
- Managed and coordinated the **Swimming event**, ensuring smooth execution with **8+ participants**.
- Created and executed a detailed **4-day event rundown**, ensuring the program ran smoothly from start to finish.

Member of Art & Sport Division

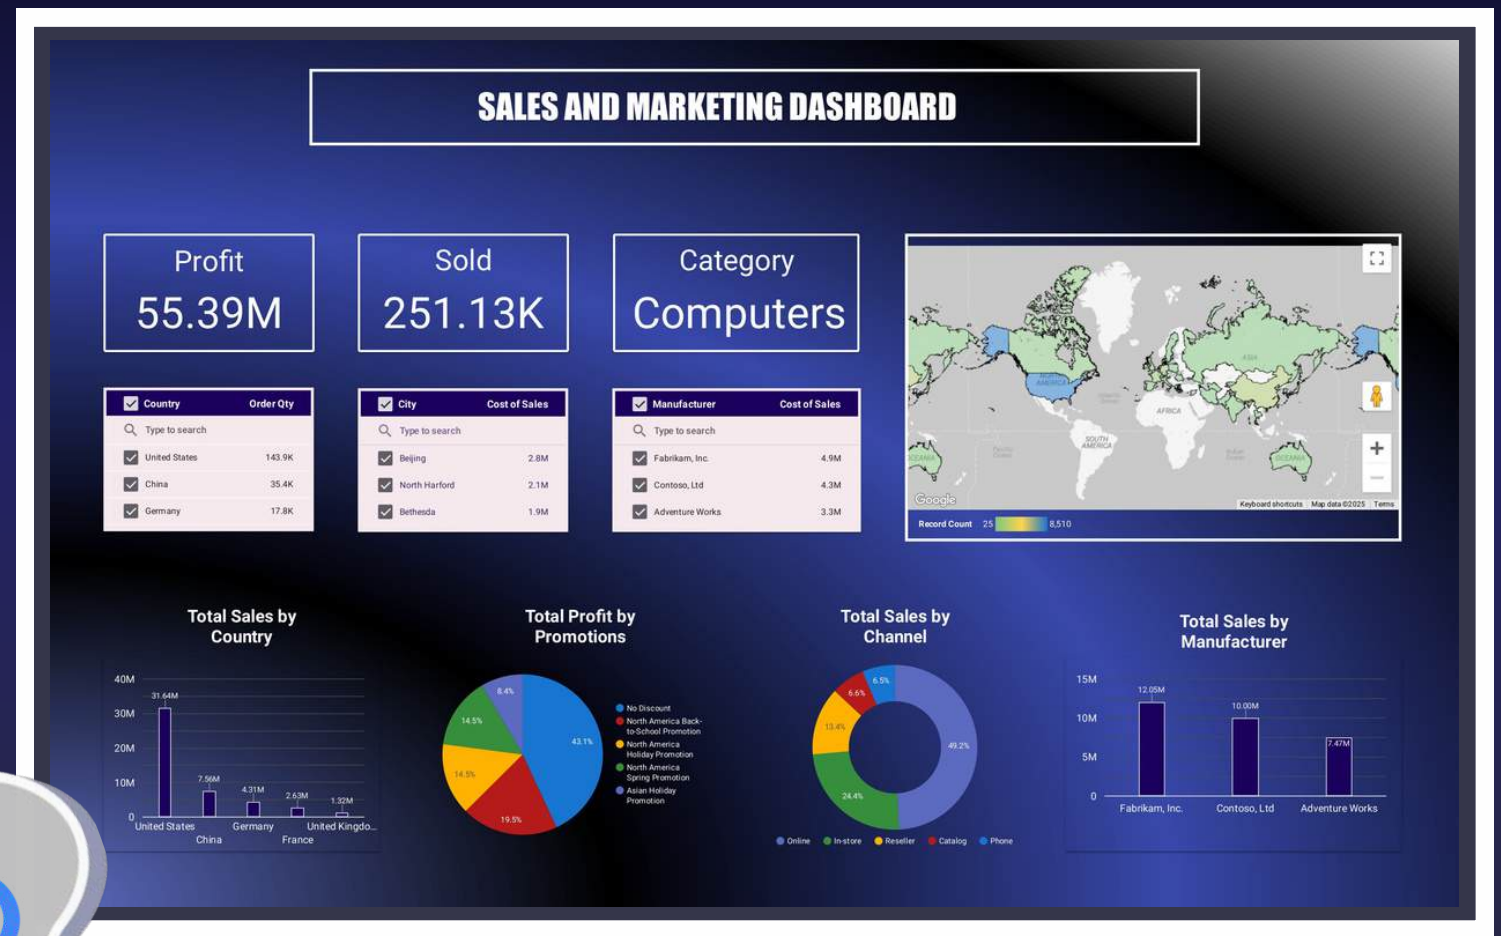

PROJECT

Sales and Marketing Dashboard

This dashboard presents a summary of company **sales performance** through key metrics such as **total profit**, **total units sold**, **top product categories**, **sales by country**, **profit by promotion**, **sales by channel**, and **sales by manufacturer**.

It helps **monitor sales trends**, promotion effectiveness, and channel contributions in real-time.

AcadeMinds Web

AcadeMinds is an integrated website designed to assist students and academic staff by providing **intelligent recommendations and performance insights** to support effective learning and teaching activities.

This system consists of a Dashboard Page displaying four key prediction modules and an Admin Page for managing data and monitoring system performance.

Key Features:

- **Instructor Performance Prediction**
- **Course Recommendation**
- **Student Learning Style**
- **Semester Course Recommendation**

AcadeMinds implements various **Machine Learning models** tailored to each feature. This Website aims to enhance the **decision-making process in academic planning** and **improve the overall learning experience through data-driven predictions**.
